

## Semi-Automatic Strapping Machine

### **FROMM** FSM-10 Strapping Machine

- ✓ Easy to use strapping machine
- ✓ Open design and portable
- ✓ Adjustable strap tension
- ✓ Adjustable strap length

The Fromm FSM-10 is a simple semi automatic strapping machine ideally suited to warehouse strapping of boxes for transport. Turns two or three boxes in to one secure parcel, reducing handling and freight costs.

For best results we recommend our range of Polypropylene (PP) strapping, talk to our friendly staff today.

All equipment is supported by our on-site mobile service team and spare parts are readily available.

FPA Part No.	Strap Size	Power Supply	Power Consumption	Machine Tension
FSM-10	12mm x 0.55	240 volt	0.4KW	5 - 55 kg
