

Orbital Pallet Wrapping Machine

FROMM FV300-50 Pallet Wrapping Machine

- ✓ Double Film Reel Dispenser
- ✓ Adjustable Film Tension
- ✓ Adjustable Wrapping Speed
- ✓ Foot Pedal Operation - Added Safety
- ✓ Easy Operation, Simple Maintenance

Fromm's FV300-50 horizontal flow wrapping machine is perfect for wrapping long products (min. 350mm) with a small diameter, such as pipes, tubes or rods.

Notoriously low maintenance, the Fromm FV range is exceptionally easy to install & operate - Plug and play, no fuss.

All equipment is supported by our on-site mobile service team and spare parts if needed are readily available.

Optional extra's include - Automatic film clamp & cut, gravity roller conveyors, side verticle rollers, short product bridge.

FPA Part No.	Ring Diameter	Max. Ring Speed	Film Reel Dimensions	Inverter / PLC	Power	Air Supply Required
