

Orbital Pallet Wrapping Machine

FROMM FV350-50 Pallet Wrapping Machine

- ✓ Double Film Reel Dispenser
- ✓ Automatic Film Clamp & Cut
- ✓ Custom Wrapping Programs
- ✓ Foot Pedal Operation - Added Safety
- ✓ Easy Operation, Simple Maintenance

Fromm's FV350-50 horizontal flow wrapping machine is perfect for wrapping long products (min. 500mm) with a small diameter, such as pipes, tubes or rods.

Notoriously low maintenance, the Fromm FV range is exceptionally easy to install & operate - Plug and play, no fuss.

All equipment is supported by our on-site mobile service team and spare parts if needed are readily available.

Optional extra's include - Top presser, side rollers, driven conveyors, automatic driven rollers, short product bridge.

| FPA Part No. | Ring Diameter | Max. Ring Speed | Film Reel Dimensions | Inverter / PLC | Power | Air Supply Required |
|--------------|---------------|-----------------|----------------------|----------------|----------|---------------------|
| FV350.50 | 500mm | 5 - 350 RPM | 100mm | Fuji / Omron | 230 volt | 6 Bar |
